Level 1 CPD – CRYPTOCURRENCIES

Our Level 1 Cryptocurrencies course is designed to give the learner a fundamental comprehension of how and why Cryptos originated, how/where they are evolving, and how to learn to trade them and discover market opportunities.

A cryptocurrency (or crypto currency) is a digital asset designed to work as a medium of exchange using cryptography to secure the transactions. A defining feature of a cryptocurrency and arguably its most endearing allure, is its organic nature: it is not issued by any central authority, rendering it theoretically immune to government interference or manipulation.

LEARNING OUTCOMES

- What is Cryptocurrency?
- History of Cryptocurrencies
